

PHARTAIL_File_based_Configuration

In addition to the Configuration parameters, PHARTAIL also supports different behaviour of the Application as per the presence of control files in the Installed folder. The names of such files and its significance is given below.

- | | |
|----------------|--|
| 1 SCANMUST.RTR | If this file is present and the countersales prescription contains schedule H1 item, then scanning of the prescription is made compulsory by PHARTAIL. |
| 2 COMPDOCT.RTR | Presence of this file makes the Doctor selection from pop-up compulsory on counter sales and disallows the doctor name manual input |
| 3 RESTREG.RTR | PHARTAIL sets the regional setting of your computer to MM/DD/YYYY on the start-up. If this file is present, the original setting is restored when you exit the program |
| 4 NOSLOGAN.RTR | PHARTAIL shows the slogan 'Everything else is a compromise...'. This slogan may disturb the profile picture that you may set as per your choice. Presence of this file shall hide the slogan. |
| 5 ITEMDUPL.RTR | PHARTAIL does not recommend having two or more items with the same name. But, if at all it is required by you, put this file in place and then PHARTAIL shall allow you to create items with exactly same name any number of times |
| 6 SHOWBILL.RTR | If this file is present, after countersales bill is complete, the Bill Number and its amount shall be shown in Large font on the screen and shall stay for 3 seconds. |
| 7 HIDERATE.RTR | If this file is present, during countersales, after you select the item and batch selection list is presented, this list will not show the purchase rate details. |
| 8 NODISC.RTR | If this file is present, it will not allow for any discount to be given from countersales. The option not applicable if the user is a Superuser. |
| 9 ORDERPSH.RTR | If this file is present, during countersales, when you input the quantity sold, you can record the item for Purchase Order with the help of a button. If the file is not present, the button is not visible. |
| 10 HIDESLR.RTR | If this file is present, during Sales Return, the free quantity input is not allowed. |
| 11 STRICT.RTR | If this file is present, the user log-in which is blocked is not allowed to be cleared from the PHARTAIL log-in screen. You need to run the SOFTUTIL and then clear the user. |
| 13 CHARITY.CON | If this file is present, the counter sale billing is done at Wholesale rate (instead of MRP). This is used for some trusts which operate the medical stores on no-profit basis. |

PHARTAIL_File_based_Configuration

- 14 EMILAN.CON If this file is present, PHARTAIL is activated to use the e-Milan functionality. This is a project from AIOCDA-AWACS which provides information exchange between Wholesale-Retail.
- 15 CPRINT.RTR If this file is present, the schedule H1 reports are printed on single line basis which then finishes the report in less number of pages. Supported only for Sales option.
